CONTENTS

Volume 37

Number 1, February 1991

V. L. Sharma, M. Chaudhuri, and A. K. Biswas: Bacterial leaching of zinc from flotation tailings 1

R. Rai: Aluminum-tolerant strains of *Azospirillum brasilense* and their associative nitrogen fixation with finger millet (*Eleusine coracana*) genotypes in an acid soil 9

S. Kume and Y. Fujio: Production of two types thermophilic cellulases in a mixture of thermophilic Bacilli 25

N. Wakao, K. Hanada, A. Takahashi, Y. Sakurai, and H. Shiota: Morphological, physiological, and chemotaxonomical characteristics of iron- and sulfur-oxidizing bacteria isolated from acid mine drainage waters 35

K. Takumi, S. Nagao, and A. Takeoka: Composition and immunodominant sites of the carbohydrate antigen of *Clostridium botulinum* type E saroma 49

A. Hiraishi, Y. Morishima, and J. Takeuchi: Numerical analysis of lipoquinone patterns in monitoring bacterial community dynamics in wastewater treatment systems 57

H. Anazawa, K. Araki, Y. Ito, and T. Ozeki: Enzymatic production of L-phenylalanine through transaminase reaction 71

Y. Nakamura, K. Itoh, N. Mikami, T. Matsuda, R. Kikuchi, M. Matsuo, H. Yamada, and J. Miyamoto: A selective plating method to enumerate target microorganisms in an environment 85

M. Morita and A. Nishi: Glycoproteins and enzymes associated with the plasmodial membrane and slime layer of *Physarum polycephalum* 93

K. Tokuoka and T. Ishitani: Minimum water activities for the growth of yeasts isolated from high-sugar foods 111

T. Hino, K. Miyazaki, and S. Kuroda: Role of extracellular acetate in the fermentation of glucose by a ruminal bacterium, *Megasphaera elsdenii* 121

Short Communication

M. Hamamoto, J. Sugiyama, and K. Komagata: Nomenclature of the basidiomycetous yeast species *Erythrobasidium hasegawae* 131

Number 2, April 1991

J. H. Johnston and J. P. Barford: Continuous growth of *Saccharomyces cerevisiae* on a mixture of glucose and fructose 133

E. Stackebrandt, H. Niebel, and R. Söller: Expression of the chromosome-coded rRNA genes of *Proteus vulgaris* in *Escherichia coli* 141

K. Katayama-Hirayama, S. Tobita, and K. Hirayama: Degradation of phenol by yeast *Rhodotorula* 147

S. Ishino, J. Shimomura-Nishimuta, K. Yamaguchi, K. Shirahata, and K. Araki: ^{13}C Nuclear magnetic resonance studies of glucose metabolism in L-glutamic acid and L-lysine fermentation by *Corynebacterium glutamicum* 157

J. B. Singh, S. M. Prasad, and L. C. Rai: Inhibition of photosynthetic electron transport in *Nostoc muscorum* by Ni^{2+} and Ag^{+} 167

T. Nakase, M. Itoh, A. Takematsu, K. Mikata, I. Banno, and Y. Yamada: *Kockovaella*, a new ballistospore-forming anamorphic yeast genus 175
Y. Yamada and T. Nagahama: The molecular phylogeny of the Ascomycetous yeast genus *Holleya* Yamada based on the partial sequences of 18S and 26S ribosomal ribonucleic acids 199
K. Nunomura, Y. Maeda, and E. Ohtsubo: The interaction of plantinum complexes with DNA studied by differential scanning calorimetry 207

Short Communication
J. H. Orlowski and J. P. Barford: Direct uptake of sucrose by *Saccharomyces cerevisiae* in batch and continuous culture 215
P. G. Sarra, R. Cantalupo, S. Massa, and L. D. Trovatelli: Colonization of the gastrointestinal tracts of conventional piglets by *Lactobacillus* strains 219

Number 3, June 1991

P. Kämpfer: Application of miniaturized physiological tests in numerical classification and identification of some bacilli 225
K. Ogawa, D. Toyama, and N. Fujii: Microcrystalline cellulose-hydrolyzing cellulase (endocellulase) from *Trichoderma reesei* CDU-11 249
Y. Takahashi, Y. Iwai, and S. Ōmura: Mode of submerged spore formation in *Kitasatosporia setae* 261
P. Vyas and M. Deshpande: Enzymatic hydrolysis of chitin by *Myrothecium verrucaria* chitinase complex and its utilization to produce SCP 267
Y. Yamada, T. Nagahama, and I. Banno: The molecular phylogeny of the Q_9-equipped ascomycetous teleomorphic yeast genus *Debaryomyces* Lodder et Kreger-van Rij based on the partial sequences of 18S and 26S ribosomal ribonucleic acids 277
Jye-Ming Chang, H. Oyaizu, and J. Sugiyama: Phylogenetic relationships among eleven selected species of *Aspergillus* and associated teleomorphic genera estimated from 18S ribosomal RNA partial sequences 289

Short Communication
J.-B. Fiol and M. L. Claisse: Spectrophotometric analysis of yeasts: cytochrome spectra of the genus *Yamadazyma* 309
F. J. G. Muriana and A. M. Relimpio: Stability of halophilic aspartate aminotransferase during long-time exposure to ammonium sulphate 315
Y. Yamada, T. Nagahama, I. Banno, G. Giménez-Jurado, and N. van Uden: The phylogenetic relationship of *Kurtzmanomyces tardus* Giménez-Jurado et van Uden (Cryptococcaceae) based on the partial sequences of 18S and 26S ribosomal RNAs 321

Number 4, August 1991

S. Singh: Role of nickel and N-starvation in the regulation of urea metabolism in the cyanobacterium *Anacystis nidulans* 325
T. S. Santos, A. Hiraishi, J. Sugiyama, and K. Komagata: Identification of the diazotrophic bacteria previously referred to as *Protomonas*-like bacteria, and their capacity for nitrogen fixation 331
K. Takumi, A. Takeoka, T. Koga, and Y. Endo: Relationships between sporulation, enterotoxin production, and inclusion body formation in *Clostridium perfringens* NCTC 8798 341
M. Wada, N. Fukunaga, and S. Sasaki: Aerobic synthesis of unsaturated fatty acids in a psychrotrophic bacterium, *Pseudomonas* sp. strain E-3, having two mechanisms for unsaturated fatty acids synthesis 355

W.-L. Chao and Cheryl L. F. Chen: Role of exopolymer and acid-tolerance in the growth of bacteria in solutions with high copper ion concentration 363
D. Kumar: Reductant supply in isolated heterocysts of *Anabaena* sp. strain CA 371
K. Katayama-Hirayama, S. Tobita, and K. Hirayama: Metabolic pathway of phenol in *Rhodotorula rubra* 379

Short Communication

A. Carlotti, S. Poncet, J. Perrier, and F. Jacob: Microbial interactions during the production of yeast on crude sweet whey 389

Number 5, October 1991

F. J. G. Muriana, R. Méndez, and A. M. Relimpio: Unusual regulatory properties of an halophilic aspartate aminotransferase 395
S. Nagata, Y. Ogawa, and H. Mimura: Internal cation concentrations of the halotolerant bacterium *Brevibacterium* sp. in response to the concentrations and species of external salts 403
K. Miyazaki, T. Hino, and H. Itabashi: Effects of extracellular pH on the intracellular pH, membrane potential, and growth yield of *Megasphaera elsdenii* in relation to the influence of monensin, ethanol, and acetate 415
M. Suzuki, T. Nakase, and Y. Fukazawa: *Candida fragi*, a new species of anamorphic yeast isolated from fermenting strawberry 423
K. Hamana, S. Matsuzaki, M. Niitsu, K. Samejima, Y. Igarashi, and T. Kodama: Distribution of hydroxypolyamines, aminopropylcadaverine, and spermine in thermophilic, hydrogen-oxidizing pseudomonads 431
M. Matsumoto, T. Kobayashi, A. Takenaka, and H. Itabashi: Defaunation effects of medium-chain fatty acids and their derivatives on goat rumen protozoa 439
J. Koizumi, M. Takeda, R. Kurane, and I. Nakamura: Synergetic flocculation of the bioflocculant fix extracellularly produced by *Nocardia amarae* 447

Number 6, December 1991

K. Takumi, T. Koga, T. Oka, and Y. Endo: Self-assembly, adhesion, and chemical properties of tetragonarly arrayed S-layer proteins of *Clostridium* 455
C. Kiiyukia, H. Nakano, R. Rajendran, H. Kawakami, and H. Hashimoto: Distribution of *Vibrio cholerae* non-O1 in and around the Hiroshima city aquatic environment, Japan 467
S. Tanasupawat, Y. Hashimoto, T. Ezaki, M. Kozaki, and K. Komagata: Identification of *Staphylococcus carnosus* strains from fermented fish and Soy Sauce Mash 479
S. Alström: Induction of disease resistance in common bean susceptible to halo blight bacterial pathogen after seed bacterization with Rhizosphere Pseudomonads 495
Y. Yamada, K. Maeda, T. Nagahama, and I. Banno: The phylogenetic relationships of the Q_6-equipped genera *Torulaspora* lindner and *Zygosaccharomyces* barker (Saccharomycetaceae), based on the partial sequences of 18S and 26S ribosomal ribonucleic acids 503

Short Communication

R. Vargas and T. Hattori: The distribution of protozoa within soil aggregates 515
Hardoyo, J. Kato, and H. Ohtake: Effects of heavy metal cations on chromate reduction by *Enterobacter cloacae* strain HO1 519
Y. Yamada, K. Maeda, T. Nagahama, and I. Banno: The phylogenetic relationships of the Q_9-equipped genus *Schwanniomyces* Klöcker (Saccharomycetaceae), based on the partial sequences of 18S and 26S ribosomal RNAs 523
